

HE ATTACKS THE TEACHERS.

GEORGE W. STEWART, A DISAPPOINTED NEGRO BARBER DENOUNCES THE TEACHERS AS BEING IMMORAL.—A LYCEUM THAT IS USED FOR PERSONAL ATTACKS—THE TEACHERS ACCUSE.

George W. Stewart, whose occupation is that of a barber, read a paper at a colored lyceum in the Union Wesley church on last Monday night, and among other things he attempted to show that the colored teachers in this city were immoral. It is not known whether this barber means to include his sister in the category of these immoral teachers or not. This negro barber in his unwarrantable attack on the teachers has lived in this city a number of years. It has always been a question of conjecture whether he has all that belongs to him or not. There is not a teacher in the colored schools who would associate with this negro barber and for that reason he, no doubt, makes these personal attacks on them. Some few years ago this barber's brother's daughter stood very low in her class, far below a number of ladies who have since been appointed as teachers. She has made several efforts to get into the schools as a teacher by her brother or uncle, either making personal attacks on the teachers or school officials and all without success. This negro barber has been chronic office seeker ever since his retirement from the Patent Office at a salary of \$30 per month. When he is not barbering he is endeavoring to run emancipation parades.

The colored teachers more or less receive such abuse from their inferiors socially, morally and intellectually. It is not surprising to them. There are men in this city who are candidates for the trusteeship of the colored public schools, who are of the opinion that their abuse of the teachers and the school officials will help them. Some time ago one of these candidates had a lady to call at his office, she is a graduate of the Normal school, and before she left, she was insulted. You can always find this class of negroes abusing the teachers. For the past month or so the teachers have been abused by another notorious libertine, who is known to be the companion of prostitutes, black-legs and gamblers. This individual can be seen standing upon public corners with a stick in his hand abusing the colored teachers. They claim to know so much, but they dare not put their charges in writing before the proper authority. They dare not, because they know that the colored public schools of this city contain the purest and the most moral class of teachers in the United States.

All the abuse against, the alleged immorality of the colored teachers comes from men who either have no social standing themselves or from gamblers, cut throats, blacklegs and libertines. The individual to whom the latter portion of this article refers lives in open adultery with a public prostitute. This is the kind of cattle from which the colored teachers receive abuse.

ROYAL BLUE TRAINS.

In September last, railway officials from London were sent to America, to get ideas on the railway passenger service of the leading lines in this country, and in their official report, which was printed in the London Times in January, it was stated that the "Royal Blue Line" series of magnificent passenger trains, running between New York, Philadelphia, Baltimore and Washington, lead the world for quick and exquisite train service.

The "Royal Blue Line" service consists of nine elegant passenger trains a day in each direction between the cities named above. They are the finest and fastest trains in the world. Their equipment was built especially for the service by the Pullman Company, and includes every modern convenience known for the comfort of passengers. The trains are vestibuled from end to end, and hauled by the strongest and fastest locomotives in the United States.

The exquisite day coaches of these trains are worthy of special note. They are beautifully upholstered, each containing a washroom and smoking compartment.

The parlor cars are the most palatial ever built, being fully seventy-three feet long. In addition to this service, three new parlor cars were added in April, and are the first of this kind ever run; they are richly upholstered and ornamented throughout in most beautiful designs. A ladies' retiring-room is provided in one end of the car. This room, which is six feet square, is furnished with a beautiful dresser with large mirror and a number of drawers. On each side of it are upholstered corner seats. In another corner is a bookcase and stationary washstand. The room was designed for especial comfort of ladies, who have always claimed men had the best of it when travelling. The usual smoking apartment, however, is at the opposite end of the car.

The dining cars are operated by the Baltimore & Ohio Railroad Company, and especial attention is given to the menu. Every delicacy is served in season, and the service is unsurpassed.

In addition to the already perfect service of "Royal Blue Trains" mentioned above, there will be put into service May 15 a "Royal Limited" train, which will leave New York at 1.00 P. M., making the run to Washington in FIVE hours. Returning, the "Royal Limited" will leave Washington at 3.00 P. M., arriving New York at 8.10 P. M. The "Royal Blue Line" will then boast of three trains which make this extraordinary fast time between Washington and New York, which has never been attained by any other line. The "Royal Blue Trains" between Baltimore and Washington make the run in FORTY-FIVE MINUTES—the fastest regular service ever attained between the two cities.

The terminal at New York City is the most convenient for all points in Greater New York. Passengers can land at South Ferry (Whitehall Terminal), where, under the same roof, connection is made with the elevated lines of the Second, Third, Sixth and Ninth Avenues, and the Broadway, Lexington and Columbus Avenue Cables. All the Brooklyn Ferries also start from this point, and by taking
